

Automation Technology Products:
A complete range of hardware and software for automation and control, robotics, sensing, metering, drives, motors, switches and accessories, and other low-voltage products and technologies.

- **Low voltage products** for industrial applications and electrical installation in buildings
 - Breakers
 - Control Products
 - Switches & Fusegear
 - Line Protection Equipment
 - Wiring Accessories
 - Enclosures & Cable Systems
- **Low voltage systems**

ABB in brief

- A global \$30 billion engineering and technology Group
- Serving customers in:
 - Process Industries
 - Manufacturing and Consuming Industries
 - Utilities
 - Oil, Gas and Petrochemicals
 - Automation Technology Products
 - Power Technology Products
 - Financial Services
- 1,000 companies, 5,000 profit centers in 20 business areas and >140 countries

Low Voltage Products
