

# COMPLETE RANGE OF FORKLIFT TRUCKS

HYSTER is able to offer a complete range of forklift trucks and materials handling solutions, with over 140 products, covering lifting capacities from 1 to 52 tons and a comprehensive range of options to suit customers' application needs.

## The Range

1. Warehouse solutions (1 000 - 2 500 kg)
2. IC & Electric Counterbalance lift trucks (1 500 - 7 000 kg)
3. Big Trucks (8 000 - 52 000 kg)

HYSTER is present in over 108 countries of the world. In Europe, the Middle East and Africa more than 70 professional and experienced distributors provide responsive local service.

Through our understanding of your business requirements, and our extensive experience in materials handling, we identify the most cost effective solution whilst offering quality products, maximising equipment up-time and providing complete after sales care.

## The services offered include:

- Expert advice in selecting the product best suited to needs
- HYSTER trained mobile service technicians who can be on the spot quickly
- A local stock of original HYSTER parts with emergency & breakdown back-up from Hyster's parts distribution center
- A wide range of service contracts
- Various rental and leasing possibilities
- Used trucks to suit every budget
