

Promega

Promega is a worldwide leader in applying biochemistry and molecular biology to the development of innovative, high-value products for the life sciences, including the following areas:

Molecular Biology

Cell Biology

(Signal Transduction and Cellular Regulation)

Genetic Identity

Neuroscience

Clinical Research and Industrial Applications

(Diagnostics and Pharmaceutical Processes and Materials)

Bioluminescence and Non-isotopic Reporter Systems

Immunology Reagent Systems

Mission Statement

"To be the most responsive supplier of biological reagents and reagent systems used in research and applied technology applications worldwide."

The concept of responsiveness refers to technology innovation, customer support, and providing value in product design and performance.
